

Thank you for completing the survey regarding future CROI locations. Based on location and hotel costs, most the 2,048 respondents (81.7%) selected Boston as a preferred option for CROI. Atlanta, GA was the second most popular site, closely followed by Montreal, Canada. The least selected options were Miami, FL, District of Columbia, DC, and San Antonio, TX.

The survey results showed that the most important logistical factors apart from the location when considering whether to attend CROI.

- Easy flight access was ranked as the most important factor
- Affordable hotel room rates come in second
- The proximity of hotels to the convention center was also important to our attendees when considering the attendance of CROI

Not surprisingly most respondents considered weather and sightseeing opportunities as important to attending CROI.
