

CROI 2023 Financial Relationships With Ineligible Companies

In the interest of maintaining the independence of its continuing education activities, and in accordance with the policies of the Accreditation Council for Continuing Medical Education (ACCME), the IAS–USA requires all persons with control of content (eg, the Scientific Program Committee, Community Liaison Subcommittee, invited speakers, and program staff) to disclose any financial relationships with ineligible companies (previously defined as “commercial interests”) that they have had within the past 24 months. The ACCME defines ineligible companies as “those whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.”

The information is intended to make the audience aware of speaker and contributor financial relationships with ineligible companies, enabling the audience members to form their own judgments about such associations.

Each author, contributor, or person in control of content in the CME activity is required to complete this financial relationship disclosure declaration. In accordance with IAS–USA policy, the IAS–USA will identify and mitigate ahead of time any possible conflicts of interest

First Name	MI	Last Name	Financial Relationships With Ineligible Companies
